DETAILED ACTION

Claims 1-19 are pending in the application.

Election/Restrictions

Applicants' election without traverse of Group I in the response filed February 24, 2004 was acknowledged in a previous Office Action.

The requirement was deemed proper and made FINAL in a previous Office Actions.

Claims 7-15, 18 and 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

Election was made **without** traverse in the response filed February 24, 2004.

In accordance with M.P.E.P. §821.04 and In re Ochiai, 71 F.3d 1565, 37 USPQ 1127 (Fed. Cir. 1995), rejoinder of product claims with

process claims commensurate in scope with the allowed product claims will occur following a finding that the product claims are allowable.

Until, such time, a restriction between product claims and process claims is deemed proper. Additionally, in order to retain the right to rejoinder in accordance with the above policy, Applicant is advised that the process claims should be amended during prosecution to maintain either dependency on the product claims or to otherwise include the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.**

Rejections made in the previous Office Action that do not appear below have been overcome by applicants amendments to the claims.

Therefore, arguments pertaining to these rejections will not be addressed.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C.

112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 6 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims must, under modern claim practice, stand alone to define an invention, and incorporation into claims by express reference to the specification is not permitted. *Ex parte Fressola*, 27 USPQ 2d 1608 (1993). Therefore, claim 1 is indefinite because “Atorvastatin calcium Form V” is not defined in the claim.

Response to Arguments

Applicants' arguments filed August 16, 2004 have been fully considered. Applicants argue that: (1) claims are not read in a vacuum,

but instead are read in light of the specification; (2) there is clear teaching in the specification of the characteristics that distinguish Form V from other forms of atorvastatin; and (3) claim 1 has been amended by adding the process steps of making Form V.

All of Applicants' arguments have been considered but have not been found persuasive. Since various forms of atorvastatin exist, it is important that the distinguishing characteristics (e.g., X-ray diffraction data, ^{13}C NMR, etc.) not only be present in the specification but also in the claims since patent protection is based on the claims, not the specification. Further, "Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985). Also see M.P.E.P. 2113. Therefore, the rejection is deemed proper and is maintained.

Allowable Subject Matter

Claims 2-5 and 17 are allowed over the art of record.

Conclusion

Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
